

ACCIDENT REPORTS

Workers Electrocuted- Hixson, Chattanooga

Two workers were electrocuted Wednesday afternoon at a Hixson job site, according to emergency officials. The crane's overhaul hook ball came into contact with a high-powered line, energizing the entire crane. The operator was electrocuted and suffered significant injuries. ACCIDENT REPORTS

Spyder Crane Crash- Midtown, New York

When a Spyder Crane Crash in Midtown brings down scaffolding on one of the busiest streets in Manhattan, the city pays attention. On April 5, 2025, two cranes at a 12-story site on Ninth Avenue between West 38th and 39th Street collapsed. A rooftop crane dislodged while attempting to lift a second crane, causing both to crash through a sidewalk shed. [Click here to read full article.](#)
